

Our Fabric Care:

All of our pajamas are made with a moisture wicking fabric. Using a patented technology, the fabric pulls moisture away from your skin to keep you dry. It is fast drying, easy to clean, and odor resistant. And, unlike other wicking fabrics, the wicking properties of our material are maintained even after multiple trips to the washing machine.

Fabric Care: Machine wash cool. Tumble dry cool. Do not use bleach or fabric softeners, including softener sheets, as they will block the fabrics wicking abilities
